**THE SOLUTION**

Prefabricate prefinished volumetric construction (PPVC) technology.

WHO IS THE TARGET GROUP

The technology is suitable for builders and developers.

HOW IT ADDRESSES THE PROBLEM

This solution leverages PPVC technologies to supply readymade green buildings rapidly and cost-effectively. The solution offers fully insulated, prefabricated, and prefinished dwellings, at a construction rate of 1000 square feet per hour.

WHAT HAS BEEN THE IMPACT SO FAR

The technology is seeking opportunities for testing and demonstration.
